SUSTAINABLE LOANS

Put your savings to work for a better world

Through Bolsa Social's sustainable loans, anyone can lend their money to social impact enterprises and obtain a financial return. A new impact investment product to boost ethical companies with social and environmental values. **Are you joining the change?**

- **Impact investment for all** in exchange for a fair return (2'5% – 8%).
- **Rigor** – with CNMV's approval & supervision and a sound internal rating system.
- **Pipeline of quality** - collaboration with relevant partners for the best dealflow in terms of risk/return/impact.
- **Flexibility** - Bolsa Social can structure ordinary loans, participative loans, convertible notes or project finance.
- **Participation** - Clear and transparent access to the information; online participation of communities of investors aligned in values; visibility for the social enterprises.

Manantial Vilamico

Special employment center that is committed to the recovery and labor inclusion of people with mental health problems.

HOW DO WE INVEST?

We invest in companies with a triple-impact

We invest in companies with a triple impact: economic, social and environmental, which contribute to the Sustainable Development Goals (SDGs), in five areas:

**GOOD HEALTH AND
WELL-BEING**

**QUALITY AND
INCLUSIVE
EDUCATION**

**RESPONSIBLE
PRODUCTION AND
CONSUMPTION**

CLIMATE ACTION

**SOCIAL
DEVELOPMENT AND
INTEGRATION**

tucuvi

Virtual assistant monitoring our elders through artificial intelligence and voice technology.

sepiia

Sustainable fashion brand, applying technology for more durable fabrics and more sustainable consumption.

Qida
Cadena de Valor

Online platform to connect elders with professional and talented care givers, properly trained and paid.

 **NOSTOC**
biotech

Organic fertilizers and pesticides for sustainable agriculture and better health.

Ciclogreen

Online platform to enable sustainable mobility and remote working in smart cities.

Tropicfeel

Sustainable fashion brand, promoting nature friendly materials and respectful tourism.

 **RawData**

Digital tools for agriculture, to improve productivity and reduce human footprint.

 **SOLUM**

Solar power solutions to make urban environment more livable and sustainable.
